About the Eurocopter AS355 Twin Engine Squirell F2

Airbus Helicopters, Inc.'s AS355 NP is tailored for a wide range of missions, including demanding operations over urban regions, difficult terrain and water. This helicopter benefits from the reliability and safety of its two Turbomeca Arrius 1A1 engines, and is equipped with a full authority digital engine control (FADEC) system.

It is fully IFR certified and can be fitted with a 3-axis autopilot, along with mission-specific equipment for medical evacuation and law enforcement service.

The helicopter can also offer excellent manoeuvrability, high speed, low vibration levels and easy maintenance.

An unobstructed cabin and forward-looking seats provides excellent visibility for all passengers, and it's very low vibration level makes the AS355 NP perfect for Corporate and Commercial transportation.

The rear passenger seats can be removed and allow the space for 1.5 cbm³ for to our bespoke packaging containers build for your goods. This aircraft is equipped with multiple FM radios, satellite communications and satellite navigation equipment, sophisticated infrared cameras that can transmit images in real time, and GPS Tracking Software.

Bespoke packaging to support your consignment within 1.5cbm³

Express Air freight- take off within 45 minutes from confirmation call.
