

THE INSIDE STORY

Our dedicated on-site veterinary team maintain the general health of the animals, carry out preventative treatments such as worming and vaccinations, sedate animals to move them when necessary and treat sick animals. Sometimes a closer look is needed to diagnose the problem. Take a look at these x-rays of some of our animals - can you guess what they are?

Answers: A - Drill, B - Pygmy marmoset, C - Howler monkey, D - Scottish wildcat, E - Javan gibbon, F - Malayan tapir
